

CARTOLOGIC

MAPPING MADE SIMPLE

Rub al Khali, United Arab Emirates

WHO WE ARE

WE ARE AN INNOVATIVE DESIGN CONSULTANCY GROUP OPERATING IN A COLLABORATIVE ENVIRONMENT EXPLORING NEW WAYS OF SOLVING OUR CLIENT'S PROBLEMS. WITH MORE THAN TWO DECADES OF EXPERIENCE SUCCESSFULLY IMPLEMENTING GIS SOLUTIONS; OUR GOAL IS TO DESIGN WITHOUT A PARTICULAR SOLUTION IN MIND, BUT WITH THE END GOAL OF PROVIDING DESIGN ALTERNATIVES THAT MAKE THE COMPLEX CLEAR. WE WORK CLOSELY WITH YOU TO PROVIDE WEB AND MOBILE SOLUTIONS FOR YOUR ORGANIZATION THAT TAKE ADVANTAGE OF THE GEOGRAPHIC APPROACH AND IMPROVE UPON YOUR EXISTING BUSINESS PROCESSES. WE DON'T CONFUSE TECHNOLOGY WITH SOLUTIONS.

OUR WORK

Our strategy is to use the latest technologies to create compelling results that bring your data to empowering solutions. Cartoview supports an unrivalled range of geospatial functionality from display and query through spatial analysis.

These services are designed to be fully integrated into your existing business processes.

Share and Collaborate

Cartoview provides users with a single gallery of maps and apps published for your organization. Access common basemaps, tools and tasks.

Custom Workflows (Plug-ins)

Cartoview delivers business-specific solutions and packages into apps with the functionality you require. With our apps you can deliver address editing, service request management, enhanced community planning, facility locators, public safety, and land use notification.

Mobile and Location-based Applications

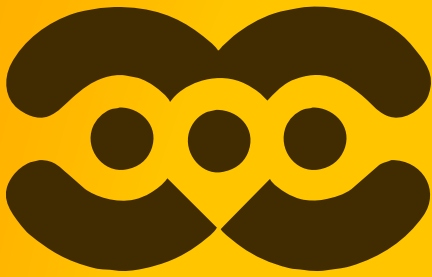

are opening new doors in how organizations interact with their clients and resources. We have a knowledgeable group of developers experienced in platforms such as iPhone, iPad, Android, and Windows Mobile.

Enterprise Connectivity

using your existing geospatial and business data makes your information all the more valuable. Produce maps to support your business needs including direct access to update and collect information.

Feature and Content Editing

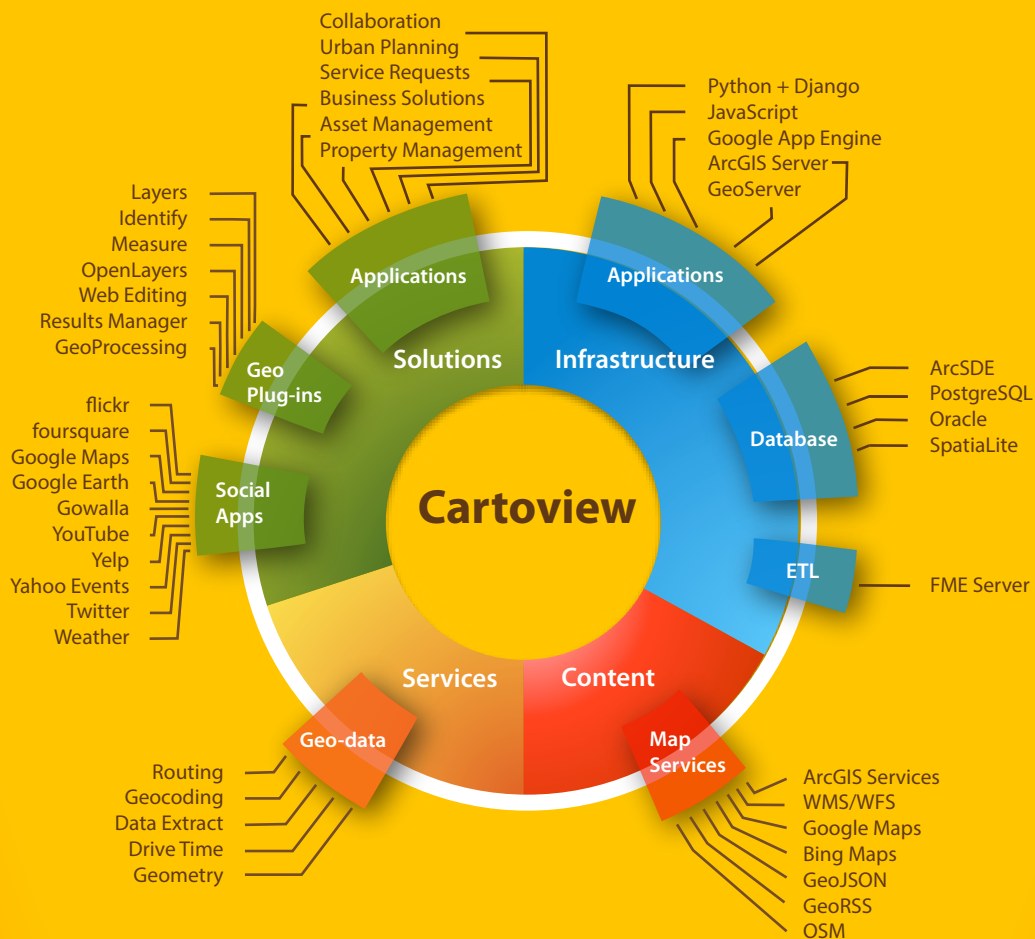

make edits directly from your browser or mobile device to your enterprise database.

CARTOLOGIC

MAPPING MADE SIMPLE

Our approach to design is to continue to innovate solutions working with a selection of industry leading third-party technologies. Our strategy is to use the latest mapping technology to create compelling results that brings your data to empowering web-based solutions. Being technology agnostic; our solutions are designed to provide the best mapping technology suitable for your organization.

SERVICES

Cartologic offers a number of professional services that assist organizations in their development efforts. Cartoview utilizes a hybrid approach implementing GIS by combining the best of Commercial and Open Source Technology; as well as working to provide consulting assistance for a wide variety of organizations. Our focus is on assisting our clients through their complex GIS implementation issues.

GIS Assessment Services

Our GIS Assessment Services assist to evaluate the spatial needs of an organization and recommend cost-effective GIS solutions for organizations to experience the benefits of adding a geographic dimension to existing business processes.

Business and IT Consulting

We work closely with management and staff to create an accurate and comprehensive picture of current operations and program structure. We deliver business processes and documentation in a format that supports organizational improvements.

Solution Requirements and Design

At Cartologic we integrate visual models of business process, business and application environments from the perspective of your specialist and IT departments, and a coherent picture of requirements emerges.

Web and Mobile Application Development

Working closely with you, we provide web and mobile solutions for your organization that take advantage of the geographic approach and meets your needs. Cartologic designs, implements, integrates, installs, hosts and maintains the GIS applications that leverage the strengths of such technologies as ArcGIS Server and GeoServer with that of Information Technology.

CONTACT US

We are always interested to learn about your next geospatial project or if you are looking to improve upon your current GIS. Please contact us at info@cartologic.com and we can give you a personalized demonstration or via our sales and services office.
